

Sirio

Snow foam car shampoo

TDS Sirio – E1R0.0917 Page 1 of 1

SIRIO is a neutral shampoo that acts as a adjuvant washing to complete the washing process of the vehicles after prewashing phase. It forms a dense and soft foam that removes the remaining dirt still present on the bodywork exercising simultaneously a polishing action of painted parts. The product is ideally suited for use in car wash systems equipped with foam arc. Thanks to its neutral pH, **SIRIO** does not impact paint, aluminum parts, chromates and plastic parts, even regenerated. The product is ideal for applications for automatic carwash with foam-arch phase. For its neutral pH, **SIRIO** does not corrode paints, aluminium, chromework, nor plastic parts even the regenerated ones.

Physical and chemical properties

Appearance:	viscous clear liquid
Colour:	orange
Odour:	carachtteristic, fruity
Density @ 20°C:	~1.000 g/ml
pH @ 20°C (as is):	~7.00
